

Up-to-date information on the 2017 financial statement and on current projects in 2018

1. Name change

The originally chosen name wee.com AG prevented a clear distinction from the operating companies. In particular, the similarity of the website wee.com to the company wee.com AG has repeatedly led to misunderstandings. The company name was therefore changed at the Annual General Meeting to **Swiss Fintec Invest AG**.

All the relevant information is available on the homepage www.wee.swiss, which will be updated at the latest on 1 August 2018 at www.swissfintecinvest.com.

2. 2017 Annual Report

Swiss Fintec Invest AG, formerly wee.com AG, is a pure investment company without its own sales. For this reason, it only generates revenue if dividends are paid out by its subsidiaries, including weeMarketplace AG. Last year, no payouts were made due to the set-up and expansion of the wee marketplace. However, there were operating costs for the stock market, auditors, lawyers, finders fees, etc. In addition, as a precautionary measure a considerable amount of reserves were set aside which had to be included in the balance sheet. As a result, there was a net loss of CHF 10.8 million as of 31 December 2017. The loss is only a balance sheet item and does not have to be paid. At the same time, Swiss Fintec Invest AG had CHF 12 million in its bank account and CHF 61 million in equity.

3. Involved GmbH

Involved GmbH has developed a strategy paper on marketplace development and presented it to the Annual General Meeting, which, under the auspices of weeMarketplace AG, is being implemented in close cooperation with Involved GmbH, focussing on financial market requirements. The first relevant results are expected in the next few months.

4. New VRP

The entire wee group of companies thanks Dr Wolfgang Maute for the valuable cooperation as well as the set-up of the existing structures. Dr Leo Thomas Schruett was elected as the new member of the Board of Directors and subsequently appointed as Chairman by the Board of Directors. He is also Chairman of the Board of weeNexx AG. For the curriculum vitae of Dr Schruett, please refer to the homepage.

5. E-money licence

All the necessary legal and technical requirements for obtaining an e-money licence have been drawn up, audited and are available to wee.

Passporting to wee-targeted countries within Europe must be clarified with the individual financial market supervisory authorities.

In particular, Germany offers a derogation in order to be able to continue this complex process as part of the further expansion of the business model. wee applies this exception to the requirement of an e-money licence in the German and Swiss markets in order to anticipate a delay in the passporting process. In addition, this possibility is also being examined in other European countries.

6. ICO

The preparations of the ICO are going according to plan and as expected. As soon as wee has more information, it can be forwarded in the foreseeable future.

7. Targets for 2018

With the present strategy paper, which was developed by Envolved GmbH on the basis of 20 years of experience in loyalty and cashback systems, we are convinced that in 2018 we would be able to assist all our stakeholders, i.e. the management of weeMarketplace AG, the external sales service providers and the Envolved GmbH to be able to reach our intended targets. This means that we will significantly increase the number of active dealers and customers in the marketplace – offline as well as online – and thereby make it even more attractive. Core markets will be Germany and Switzerland as well as other European countries in accordance with the regulatory provisions.

On the homepage www.wee.swiss or from 1 August www.swissfintecinvest.com we will regularly inform our shareholders and other interested parties about the current status of our projects.
